

## CORIT Advisory boosts its transfer pricing offering

Having experienced significant demand for international transfer pricing services over the past years, both in the compliance area as well as in the strategic area, we have decided to boost our efforts within these areas even further.

As of 1 January 2024, we have promoted our two longstanding colleagues Henrik Guldhammer Nielsen and Louise Blichfeldt Fjord to associate partners to spearhead the efforts in a two-prong leadership structure.

Going forward our transfer pricing team will bring a full service offering to the market with a clear ambition to become even more visible and contributing to setting the standard.

Henrik Guldhammer Nielsen will be leading our efforts within transfer pricing compliance and project management.

Henrik is a seasoned practitioner, with more than 25 years of experience comprising advisory as well as in-house experience (including as global head of tax) from leading multinationals. Henrik joined CORIT in 2018.

Louise Blichfeldt Fjord, Ph.D., will be leading the strategic transfer pricing offering, which includes TP structuring, planning, disputes, IP transactions and business restructurings, MAP/APA etc.

Louise brings with her 8 years of experience working with transfer pricing as well as related complex international corporate tax issues. Louise holds a Ph.D. in the tax aspects of digital business models and joined CORIT in 2015.
